If your quest is untamed wilds and primordial roots, then in the 130,000 square miles of Finland, you’ve found it! It is a country with a landscape of breathtaking beauty, and, in midsummer, 19 hours of daylight to enjoy nature in all its glory. Yet, it is more …

It is the home of Jean Sibelius (1865-1957), the world-famous composer of Finlandia, Valse Triste, the Violin Concerto, and seven symphonies; to many he was the symbol of a nation struggling for independence. A stroll along Helsinki’s streets will take you past architectural gems of neoclassicism, national romanticism, and the modern age. Kiasma, the Museum of Contemporary Art, the National Opera House, and Finlandia Hall (one of the masterpieces of architect Alvar Aalto) are just examples.

In the "land of the thousand lakes" (approximately 188,000!), fish is a natural choice at mealtimes. Try salmon (lohi), rainbow trout (kirjolohi), Finnish whitefish (siika), pike (hauki), Baltic herring (silakka), perch (ahven), or the small whitefish species (muikku). Another possibility is the cold buffet (voilepapoyta), which is served at a fixed price - it is quite acceptable to return for two or three helpings!

Finland has approximately 5.5 million citizens and about 1.6 million saunas. You'll find them everywhere—in homes, hotels, holiday villages, and camping sites. For a Finn, a sauna is not a luxury but a necessity and a way of life. After trying a sauna, you'll probably agree.

BUDGETING AND SHOPPING

The following budget guidelines are just approximate values or starting values for meals and are per person. Actual prices will vary widely by restaurant and city within a country but below are some averages as provided by our experienced personnel.

- The approximate cost of a soft drink/mineral water/coffee is €3-4.
- An average lunch consisting of a salad or sandwich and a soda or water starts at approximately €15-20.
- Dinner at a mid-range restaurant with dessert and a non-alcoholic beverage starts at approximately €40.

Please note that soft drinks and mineral water are often as expensive, if not more expensive than wine or beer.

Shopping specialties: modern glassware, pottery, colorful fabrics, wooden Christmas ornaments.
TIPPING

- Restaurants in Finland almost always include a service change, so tipping is not necessary. However, we recommend adding a tip of no more than 10% to the bill for service if you choose to tip.
- For taxi services paid in cash, round up the fare as tip. Otherwise, 10% of the fare is reasonable.
- For hotel staff, €1 for room service is common.
- A few coins will be needed for restroom comfort stops/public toilets.

ELECTRICITY AND ELECTRICAL OUTLETS

Outlets
Voltage for outlets is 230V. North American voltage is generally 110V. Therefore, you will need a converter for your travels. Adapters will be necessary to adapt your plug into the outlet, but these may not convert the voltage, so both devices are necessary.
